

WOW

INTRA-ORAL
SCANNER

BIOTECH DENTAL

Get hyper realistic scan with textures and real colors

Camera
100% submersible

Improve the communication with your patients

The WOW® intra-oral scanner brings you to a multidisciplinary world with no barrier between orthodontics, implantology, and prosthetics.

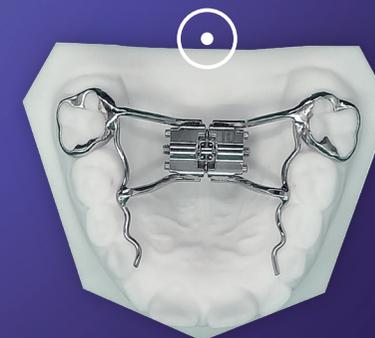

- ✓ Accurate scanner and intuitive software
- ✓ Complete digital workflow
- ✓ Open and evolutive system
- ✓ Free updates

THE ALPHA GENERATION AT THE CENTER OF DIGITAL

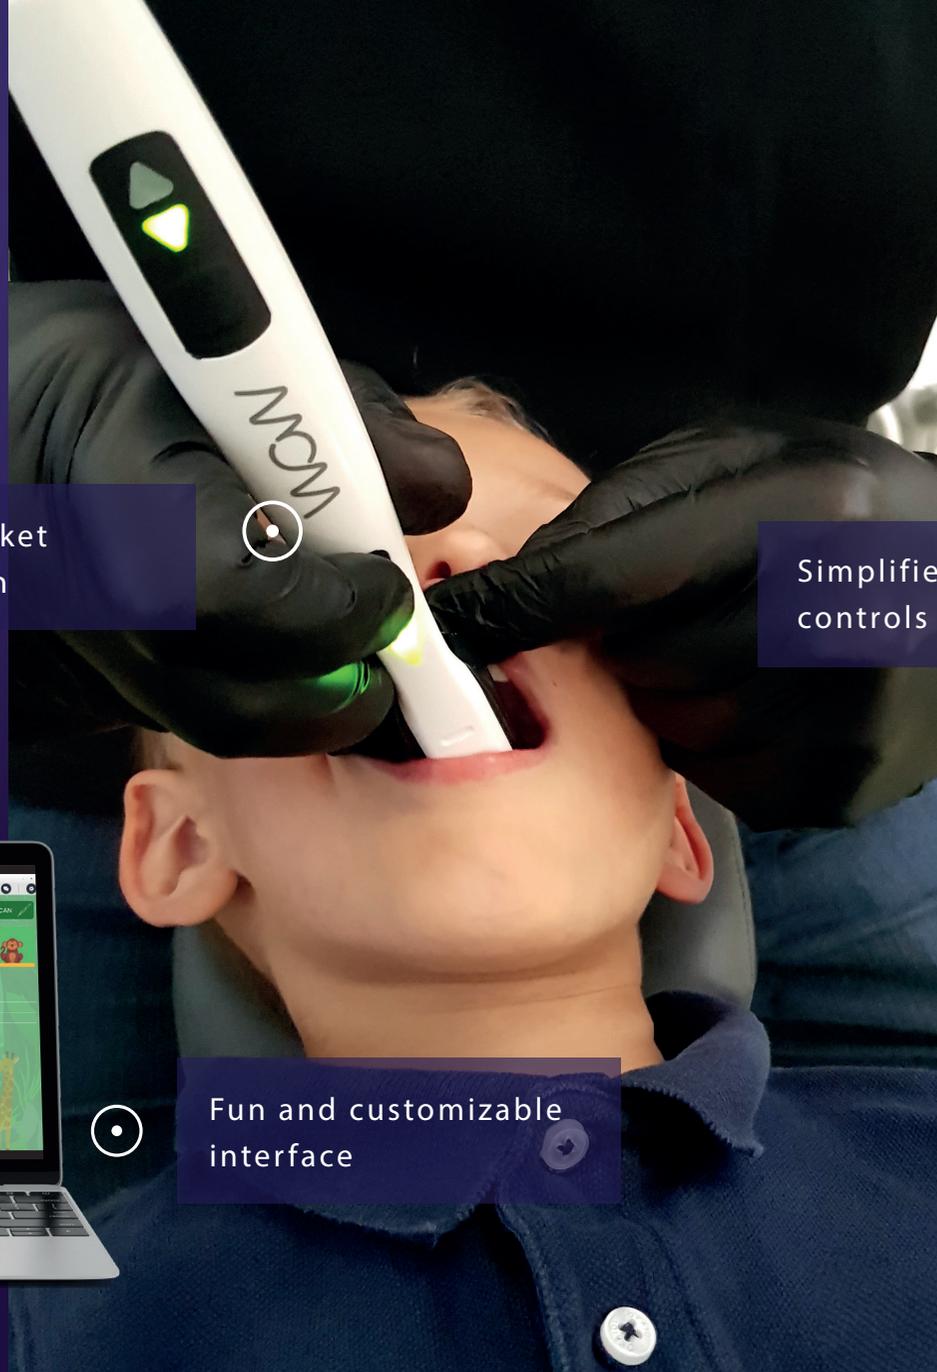

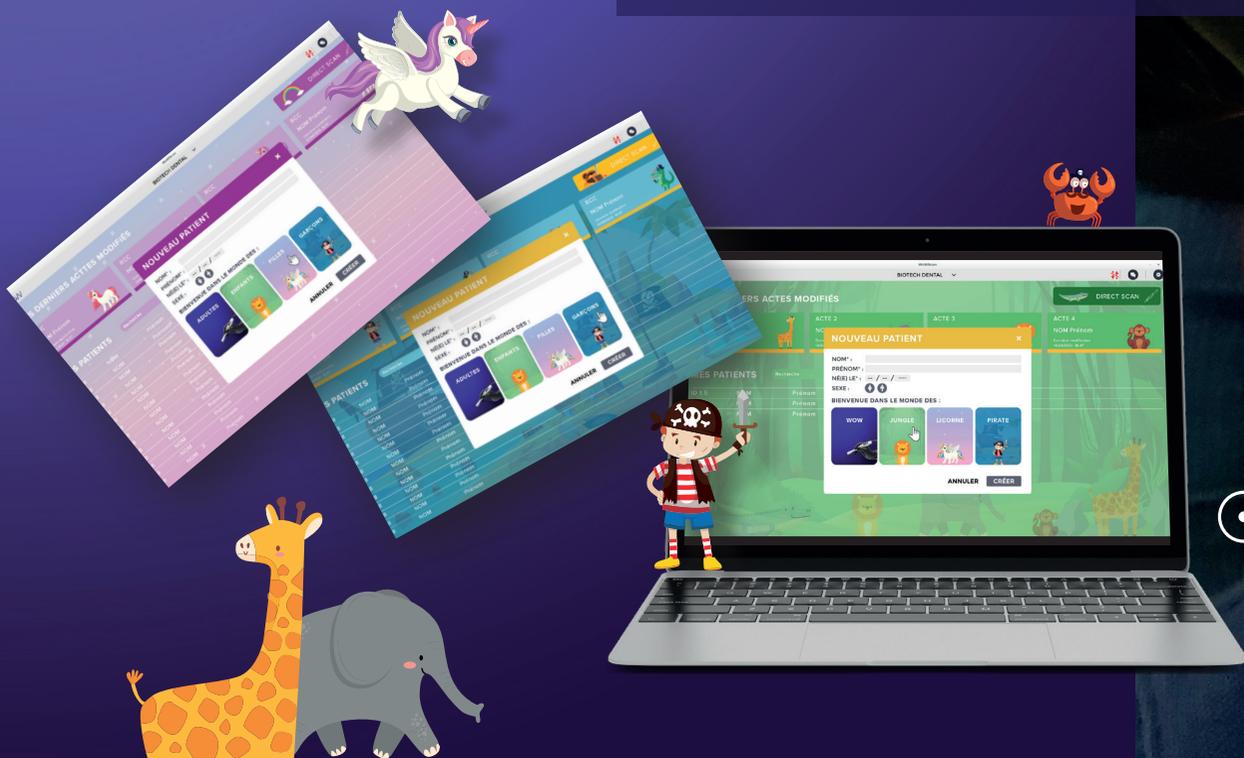

Smallest camera on the market for easy access in the mouth

Simplified pedodontic controls

Fun and customizable interface

sm)ersLab
by axe ortho

A HELPING
HAND TO
ORTHODONTICS

smilers®

Intuitive software

Take an impression in a few minutes.

Simplified transfer

Easily transfer your digital files to our Smilers® clear aligners manufacturing and processing center.

Smilers® Experts

Work with Smilers® orthodontists to define a treatment plan so your patient can smile again.

Smilerstory*

Increase your patients' interest to treatment by sharing the Smilerstory: before/after video of their treatment.

*This video is a treatment simulation. Compliance with the instructions for using the device and compliance with the treatment plan created by the healthcare professional are essential in order to obtain the expected result. Additional phases may be required.

DIGITALIZE YOUR IMPLANT PRACTICE

SCANBODIES

Take advantage of a wide range of scanbodies, easily recognizable by the WOW®, for digital identification of your implants' position

GUIDED SURGERY WITH SIMPLICITY

Easily transfer your digital impressions to our BD Planning Center platform, which will take care of the planning, design and printing of your guides.

biotech-planningcenter.com

IMPLANT PROSTHESIS WITH SAFETY

Ask your laboratory to produce implant prosthesis in collaboration with our CAD/CAM processing and manufacturing unit, unique in France.

biotech-dental-digital.com

DISCOVER THE REMOVABLE PROSTHESIS 100% DIGITAL

Send your files directly to the Circle ordering interface, select your treatment plan online, and place your prosthetic order at your laboratory.

Receive your 100% tailor-made prosthesis, produced in France, within 10 working days. The prosthesis fits perfectly to your patient's mouth, in just two appointments.
